Shipping dimensions 37.5” (950 mm) L x 20.5” (520 mm) W x 14” (355 mm) H

Notes

Consider accessories when measuring cabinet height and cutouts.

Unit must be installed through the front of the cabinet. Cabinet should not be designed with lower rail.

If installing the exhaust hood in an overhead cabinet or if using a front panel made of wood or plastic, observe the instructions of the manufacturer of the gas cooktop regarding the use of flammable materials above the cooktop. If not otherwise specified in the instructions, ensure a distance of at least 30” (762 mm) from the gas cooktop.

All installations must be done in accordance with local codes.

Drawing is not to scale
